“Wizard™” family bar code viewing/reading data terminals

- Real time video display of invisible bar codes.
- Read IR and UV invisible 2-D bar codes: Datamatrix and Armorcode.
- Tolerant to distortions, variations of intensity and contrast.
- Data storage and communications.

- Secure 2-D bar code, employing high quality encryption and password-like protection of data.
 - Proprietary architecture.
 - Allows privatization of symbology use per customer and/or per application.
 - Guaranteed data integrity.
 - Strong error detection and correction.
 - Omni-directional reading.
-

Additional Features

- Two geometrical shapes: square (1 x 1) & rectangular (3 x 1).
- Tolerates partial obstructions of image.
- Various data capacities are available.
- Numeric and alphanumeric encodation.
- Date and time stamp is available.
- Super strong encryption challenging modern supercomputers, yet easy to use.

Benefits of ARMORCODE® symbology

FIXED PATTERN mode.
Same data – Same pattern.

RANDOM PATTERN mode.
Same data – Different pattern
for each bar code.

Benefits of ARMORCODE® symbology

Bar codes generated for
Customer "X"

Bar codes generated for
Customer "Y"

Bar code patterns generated by POPYRUS™ software for different customers are thoroughly randomized and depended on the customer password. Readers of customer X use password X that unlocks only corresponding bar codes X and vice versa. Number of independent customers is unlimited.
